

Diamond Business Services Selected as a TORCH-TMI Endorsed Business Partner

Partnership to provide Identification Systems and Temperature Tracing Solutions to Texas Healthcare

AMARILLO, TX -Diamond Business Services, the region's leading Identity Solutions Provider, has been selected as an Endorsed Business Partner by the Texas Organization of Rural and Community Hospital's (TORCH) Management Services, Inc. Diamond Business Services (DBS) was approved as Endorsed Business Partner by TORCH Management Services, Inc.'s (TMSI) Board of Directors based on the firms' background of providing solutions to help in the Identification of People, Products and Processes

“We are delighted to welcome Diamond Business, a Texas-based company of 38 years standing, to our family of Endorsed Business Partners,” said Vicki Pascasio, FACHE, President and CEO of TMSI. “Diamond Business Services’ experience, resources, and expertise in Identity Solutions across Texas and nationwide offer timely and key benefits to our members.”

“Rural hospitals in Texas deal with financial challenges every day and the additional burdens of the COVID environment have amplified those. We strive to assist with solutions that are budget-friendly but also help with identification applications, be they Photo ID's, Visitor Management, Temperature Tracing, or more. We understand that cookie-cutter solutions do not always fit the needs of our rural and community clients. We strive to establish a relationship and listen to what they want and need to create a better environment for Patients, Staff, and Visitors.” said Charlia Pence – President of Diamond Business. “Our goal is to partner with TORCH members and provide them with the most comprehensive identity solutions to help meet their needs today and, in the future, and serve as a resource for industry trends.”

About Diamond Business Services, Inc.

Diamond Business Services was established in 1982 with Healthcare as a prime focus market for the company. Going back to the use of “blue card” and “addressograph

imprinters” to track patient procedures, billing, and room locations. Technology has moved them to solutions that electronically track, allow access, identity, and trace the needs inside and outside the facility. Diamond Business Services is a founding member of the Identification Systems Group, an elite group of identification industry veterans that are experts on any identification or identity management system project large or small, local or nationwide. They also collaborate to provide consistent and cohesive services and technical support for clients with locations across state or country borders. see www.diamondbusiness.net and www.identificationsystemsgroup.com. About Texas Organization of Rural & Community Hospitals

The Texas Organization of Rural & Community Hospitals (TORCH) was founded in 1990 and is the leading advocate and resource for more than 150 general acute-care hospitals. The organization provides legislative and regulatory advocacy, specialized programs, publications, services, and resources for rural and community hospitals; and supports rural and community hospitals as the focal point for health care delivery in the community. TORCH Management Services, Inc. (TMSI) is the wholly-owned subsidiary of TORCH that offers management and operations consulting services. TMSI also provides a preferred vendor program called “Endorsed Partners.” Endorsed Partners are a specially selected group of companies whose experience working with rural hospitals has undergone a thorough verification process. For more information about TORCH, visit www.torchnet.org.
