

The BadgePass wireless mortise door lock is designed to affordably extended secure door access deeper into your facility beyond traditional perimeter and/or high security openings. These devices include the mortise lock, reader, and access control sensors together in a small footprint that is elegant and easy to install.

Compatible with BadgePass ONE, these locks can easily connect to an existing Wi-Fi network to receive daily system updates from the software. Even better, customers can choose to purchase wireless locks up front or as part of their system subscription!

FEATURES:

- Designed for interior mortise openings.
- Combines mortise lock, reader, and access control sensors.
- Reduce installation costs by eliminating wiring.
- Fits standard mortise prep with minor modifications.
- Wi-Fi connectivity allows for automatic daily updates from software.
- Multiple finishes and lever styles available.
- Requires 4 AA batteries.
