Help Your Staff Feel Safe with Dignified Screening

Evolv in Healthcare

Evolv Express uses advanced sensors and AI to distinguish between weapons and everyday items, leading to more dignified and welcoming screening. Relied upon by **over 300k hospital staff, patients, and visitors**, with trust built on:

- **EMTALA Compliance**, with a free-flow system that enhances the patient experience
- Helps **empower workplace violence prevention teams** with data on weapons found and more
- **Promotes fairness** for guests with a directed search, guiding staff who to look at and where to look
- Supports **employee engagement surveys** by helping staff feel empowered to deliver exceptional care

“Express lifts the burden off the shoulders of coworkers, empowering them to treat patients while continuing to feel safe.” - **John Spier, Clinical Mgr., Emergency Department, Mercy, Springfield, MO**

Dedication to Excellence

200+ Hospitals

have Evolv Express systems deployed in the US (3,000+ total in the US and Abroad)

- Notable hospitals include Mercy Health, Temple Health, Southern Ohio Medical Center, Aultman Health, Windsor Regional Hospital

300,000 Hospital Patients, Visitors, and Staff

screened per day (2 million total people screened per day)

750+ million

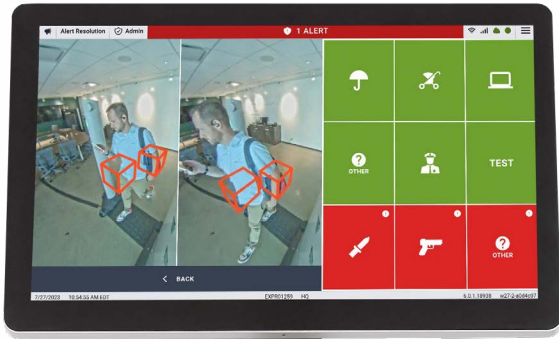

visitors screened at hundreds of iconic venues and facilities since 2019

179,000

Customers reported verified weapons found in 2023

U.S. Department of Homeland Security (DHS) **SAFETY Act Designation** for Weapons Detection

“The driving factor for us to use Evolv was to increase safety and security for our patients, visitors, and staff. We know it is working because the reaction from our staff has been extremely positive.” - **Brian Wade, Temple University Health System’s Director of Environment of Care, Emergency Management, and Security**

New! Evolv Extend™ is designed to identify non-concealed (or brandished) guns approaching a venue and expand detection beyond the door, to create essential time and space for proactive security measures.

Why Evolv?

Evolv is a human security company founded on the mission to transform security to create a safer world for people to live, work, learn, and play.

Evolv is dedicated to helping make the places where people gather safer, growing from a single product into a dynamic suite of solutions to deter, detect and orchestrate responses, ensuring a safer future.

Our Growing Product Portfolio

Evolv Express helps protect providers and the patients they care for, achieving the goal of making healthcare facilities a safer zone.

Cloud Platform: Analytics to meet Workplace Violence Prevention data requirements

Detection: Superior detection of firearms (e.g., sub-compact and as small as micro-sub compact), firearm components, and other metallic based threats

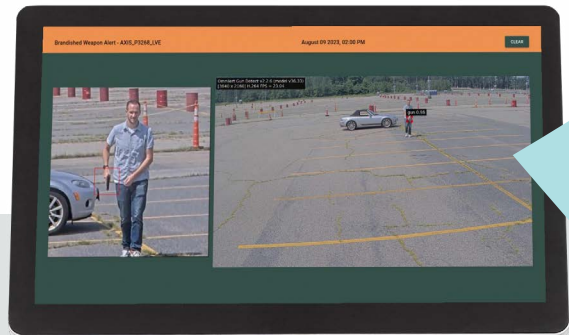

Directed Search: Visual evidence for a noninvasive, unbiased secondary screening

Free-Flow: Reduces long lines to quickly gain access to visitor management, without divesting belongings

Security Integration: Consolidate alert data and communication across multiple VMS and Access Control systems
