Eliminate the need for in-person ID photo capture.

Capture ID photos any time, anywhere, on any device.

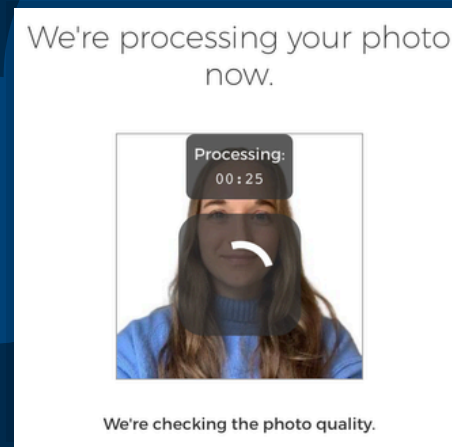

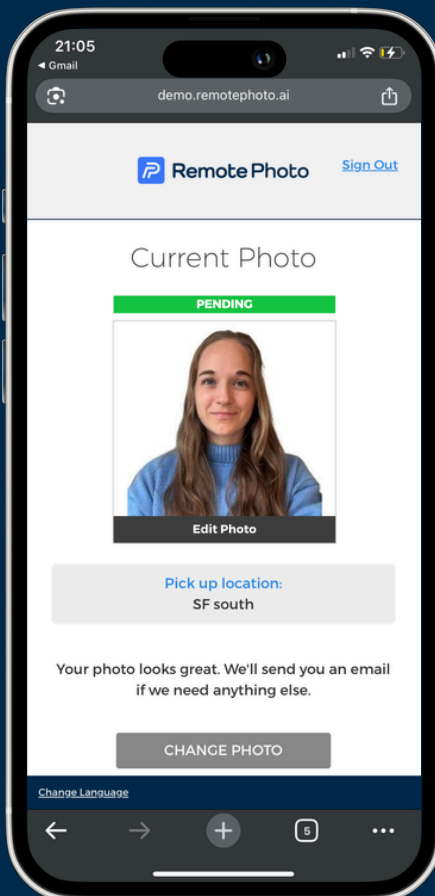

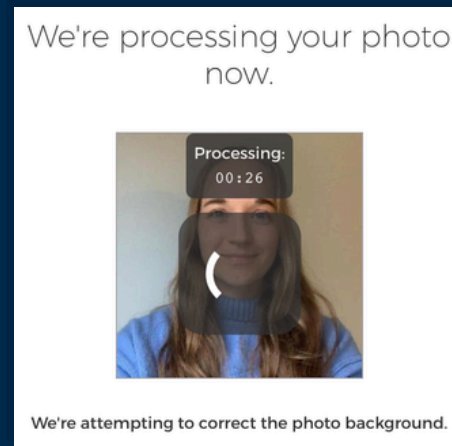

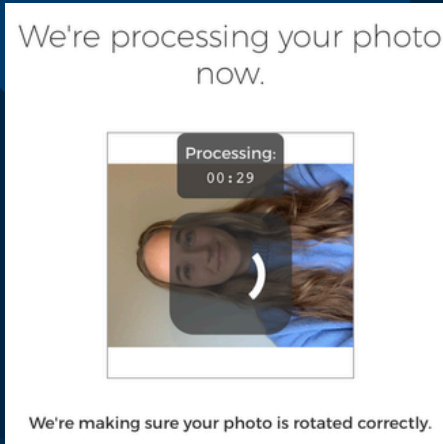

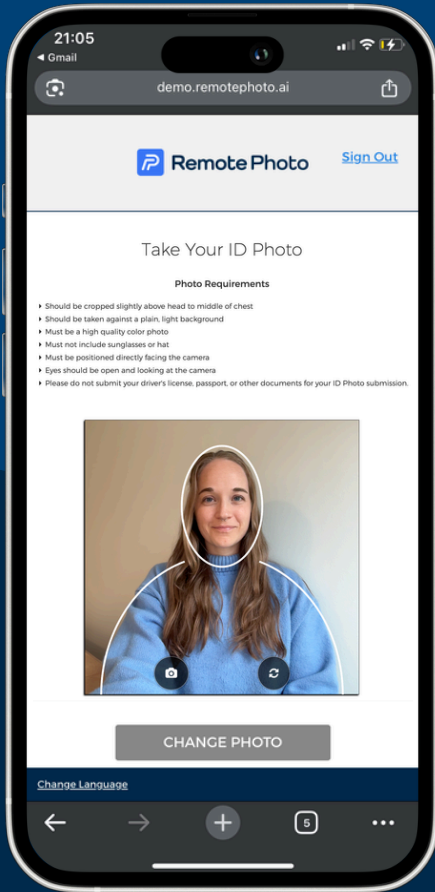

Gather perfectly compliant, quality ID photos **without** requiring in-person photo appointments. Badge or card holders submit ID photos remotely via a **self-service workflow**.

AI-powered **auto approval** and **denial** replaces manual review and ensures photos meet your organization's requirements.

Auto rotate, crop, and background removal in seconds.

Photos show up right on time, right where you need them.

Automatically download photos directly into your access control, human capital management, and badge production systems.

The screenshot displays the 'Remote Photo' web application interface. On the left is a blue sidebar with navigation options: Photos, People, Archive, Dashboards, Organizations, Cardholder Groups, Your photo, > HelperBot, and About. The main content area is titled 'Approved Photos' and includes two orange buttons: '+ ADD PHOTO' and 'DOWNLOAD PHOTOS'. Below the title are tabs for 'Pending', 'Approved', 'Denied', and 'Downloaded', with 'Approved' selected. A table lists approved photos with columns for 'ID Number' and 'Photo'. The table contains four rows of data.

ID Number	Photo
181327019283741938444	
1813270192837419384	
187383987293487294	
66890	

*With RemotePhoto, ID photos **just happen.***
